

## GENERAL INFORMATION

The following information has been carefully prepared for you. Please read it carefully and note all the contents.

TIME THE UK IS 6 HOURS AHEAD OF DALLAS.

Safety Please pay close attention to safety and security matters regarding yourself and your possessions while abroad, especially at airports.

Be alert for pickpockets wherever you are and do not wander around anywhere late at night on your own.

Please be alert when withdrawing cash from ATM machines. Do not remove money from your bag or clothing in full view of everyone in any public place.

Watch the traffic when stepping off the curb. **LOOK RIGHT!**

Check each time you leave an aircraft, taxi, train, coach, restaurant, shop, garden or restroom that you have all your possessions with you.

We suggest that you have a supply of Kleenex and travel wipes with you for emergencies. Make sure you have your own medications along with a supply of headache tablets, anything for stomach ailments, Band-aids etc. Tablets may be expensive overseas, and it is not always easy to order what you need or what you are used to taking, so it is best to take what you need along with you, i.e. your own first aid kit. All tablets should be in clearly labeled bottles. If you must take prescription drugs, take the written prescription with you.
